1. Infotype 0007- Planned Working Time

Infotype 0007 is used to define when and where an employee works within your enterprise on a daily basis. By assigning a work schedule rule in the Planned working time infotype (0007), you ensure that the system can determine the employee's personal planned working time

Work Schedule Rule:

The work schedule rule determines which period work schedule is used to set up the work schedule and the day of the period as of which it applies. Work Schedule Rule changes form personnel area to personnel area. Working schedule belonging to the particular employee can be seen here.

Access Transaction:

Transaction Code: PA30

Procedure:

To maintain the work schedule of the employee enter the transaction code pa30. Press Enter.

This Infotype is used for Maintaining Employees Planned working Schedule / Time

Enter the Employee Code for whom work schedule has to be created.

- Enter Infotype 0007
- Click on create / Change icon 🦉.
